Options for You and Your Doctor to Consider

The Nutropin AQ NuSpin is being voluntarily discontinued by the manufacturer in December 2024. On July 31, 2024, the Nutropin AQ NuSpin will be subject to new prior authorization (PA) requirements, even if you have had a PA approved in the past. Carefully read the information below to understand your options. Drugs marked with an asterisk (*) require your doctor to request PA. PA is a routine review process to ensure that the requested drug is safe, cost effective, and medically required. Without an approved PA, you will pay the full cost of the drug. Discuss this option with your doctor.

How to Contact your Military Treatment Facility's Pharmacy

Visit Tricare.mil/FindDoctor/mtf and type in your ZIP Code or Facility/Installation Name. After clicking on the name, the pharmacy's information, including phone number and hours of operation, will be displayed on the far right side of the web page.

Prior Authorization

Prior authorization (PA) is a routine review process to ensure that the requested medication is safe, cost effective, and medically required. Without an approved PA, you will pay the full cost of the drug through Home Delivery and at retail network pharmacies. The drug may not be available at the Military Treatment Facility. The PA remains valid until it expires or a change is made to its criteria requirements by the Department of Defense (DoD) Pharmacy and Therapeutics (P&T) Committee.

For drugs that require a PA, ask your doctor to submit the request(s) electronically through a simple process called Electronic Prior Authorization (ePA). The doctor's office can learn more about ePA at providerportal.surescripts.net/ProviderPortal/dod or covermy meds.com/epa/express-scripts or by calling the Express Scripts doctor line at 866.684.4488 for assistance.
